DEPARTMENT OF OPHTHALMOLOGY

www.qrgmedicare.com/healthcity

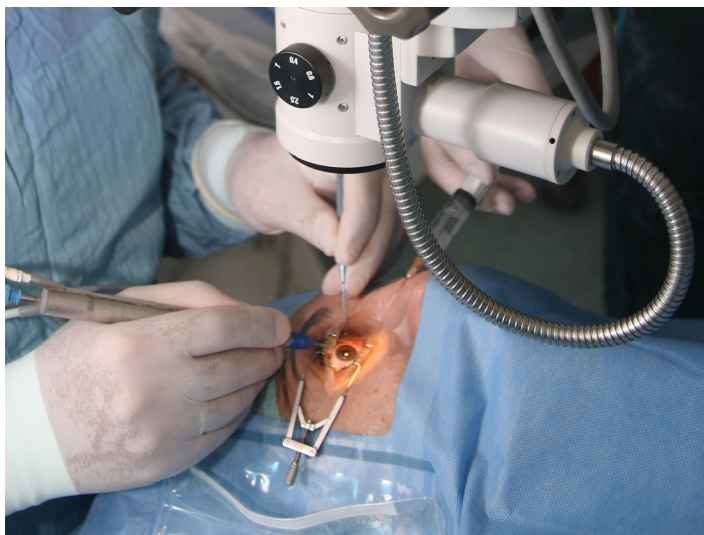

The Department of Sight at QRG Health City provides a wide range of diagnostic and treatment services for comprehensive eye care covering a range of conditions.

From routine eye examinations to medication to surgery, we treat all patients with meticulous care and compassion, giving our patients convenient access to quality treatment. The expertise of our eye specialists is strengthened and supported by an experienced nursing staff.

EXCELLENCE IN EYE CARE AT QRG HEALTH CITY:

QRG Health City's Department of Sight integrates the proficiency of skilled ophthalmologists with state of the art technology to treat an array of eye problems whether it is simple vision correction or more challenging diseases such as cataract, glaucoma, diabetic retinopathy, squint, Age Related Macular Degeneration (ARMD).

We offer treatments ranging from eye testing and correction to implanting contact lenses, vitreo retinal surgery and minimally invasive cataract surgery. Our ophthalmology surgeons are specialists in performing complex and intricate eye surgeries involving a high level of skill and dexterity.

Symptoms of cataract can include

- Blurry or dim vision
- Nearsightedness
- Double vision
- Difficulty in seeing at night or in low light
- Change in perception of colors, seeming faded colors
- Sensitivity to glare

Symptoms of glaucoma can include

- Severe pain in the eye or brow
- Redness in the eye
- Blurry vision, decreased vision
- Nausea and vomiting
- Appearance of rainbow colors around a bright light

SERVICES AND PROCEDURES

Eye Testing

We recommend regular eye testing to detect treatable eye diseases and prescribe the necessary course of treatment i.e. either lenses for vision correction or medication or surgery.

Minimally Invasive Cataract Surgery

We have well-renowned specialists conducting advanced minimally invasive procedures for removal of the cataract – the natural lens of the eye that has developed opaqueness causing impairment of vision. The premium IOL's like Toric, Multifocal IOL's with MICS are the latest addition to the surgical array.

Vitreo Retinal Surgery

Our competent ophthalmologists are well trained in performing delicate surgeries for all types of retina problems including macular degeneration, retinal detachment and diabetic retinopathy. We perform Intravitreal Injection of Lucentis & Eyelea with facilities of TOPCON FFA & Green Lasers for diabetic patients.

Glaucoma Services

We offer diagnosis of glaucoma with latest equipments like HUMPHREY Perimetry, 3D-OCT, Non contact tonometry and surgically treat patients with latest implants like Ologen whenever required.

Oculoplasty Services: Oculoplastic surgery is the cosmetic, corrective, and reconstructive surgery of the eye. It manages and repairs problems primarily related to the tissues or structures surrounding the eye, rather than the eyeball itself. These structures include the eyelids, the tear ducts, and the orbit (bony socket surrounding the eye).

Pediatric ophthalmology: The Pediatric Ophthalmology and Strabismus Service provide comprehensive primary care for the diagnosis and management of infant and child vision and common childhood vision disorders. It also performs surgery to correct ocular misalignment and double vision in children and adults.

Optical Services: We have state-of-the-art fitting and processing lab combined with the trained staff are here to provide you the

quality service. Our Optical division provides you variety of frames of every style. We have uniquely balance with quality and affordability of frames with current style with comfort. Lenses available range from regular glass lenses to the latest in polycarbonates

Technology & Infrastructure

QRG Health City believes in using advanced technology and equipment for effective diagnosis and treatment. We use state of the art ophthalmoscopes, retinoscopes and other eye testing equipment including tonometry instruments to check for glaucoma. Our technology also features high-end phaco machines, YAG lasers and green lasers for cataract or retinal surgery.

Closing section

QRG Health City believes in the highest standards of treatment for medical conditions affecting one of the most delicate organs of the human body – the eye. Our eye care specialists have a world of experience in the intricate procedures conducted to treat retinal abnormalities.

We recommend regular eye examinations to detect preventable and treatable diseases. Our ophthalmologists, supported by trained and competent nurses and technologists, provide patients with superior care aimed at maintaining or restoring healthy eye function.

So take the first step towards a healthier you and seek our expert advice.
